Erlen, December 2021

## DECLARATION OF CONFORMITY FSC / PEFC / PAHS / FORMALDEHYDE E1

Thur Metall confirms that all workbench and workstation tops sold by us originate from FSC and/or PEFC-certified suppliers and that their wood products come from legal and sustainable forestry.

In addition, all wood products meet at least the E1 formaldehyde classification.

The nitrile coverings used have been tested and certified for PAH values by an independent third party and are therefore fully compliant with the REACH regulation.

Please do not hesitate to contact us if you have any questions.

Kind regards,

**Claus Bachor**  
Head of Procurement

**René Frei**  
Head of TQM
