

TM-Quality-Station

Focus on precision – our inspection workstations.

Product video

The Quality Station optimises your production: it combines order, ergonomics and digital networking in a robust design. Protect equipment with the secure roller shutter and increase efficiency with clear structures. The perfect choice for precision and progress in the workplace.

Don't just invest in a piece of furniture, invest in the quality of your processes. The Quality Station – redefining professional work.

The Quality Station optimises your production: robust design meets ergonomics and Industry 4.0. Thanks to secure roller shutters, smart organisation and full IT integration, you can increase efficiency and precision – the perfect solution for modern professionals.

Maximum efficiency through systemisation:

With its structured storage for documents and small parts as well as colour-coded, ball-bearing drawers, the Quality Station ensures that tools and measuring equipment are always quickly to hand.

Work healthily, stay motivated:

The flexible working height enables ergonomic working while sitting or standing, while glare-free lighting and an open design reduce fatigue and promote concentration.

Robustness & modern design:

High-quality materials, durable surfaces and a robust roller shutter ensure maximum durability and reliable protection in everyday workshop use.

Digital bridge to Industry 4.0

Technology directly at the point of production: Smart integration: Prepared for IT cabling, laptops and tablets – digital documentation made easy. Central information point: Ideal for team meetings and visualising your production key figures in real time.

Premium features for professionals: functionality without compromise.

The Quality Station offers an ergonomic synthetic resin work surface at a height of 995 mm, complemented by integrated LED lighting and five power sockets. Security and tidiness are ensured by the lockable roller shutter, a materials cabinet and four heavy-duty drawers with full extension. This comprehensive technical equipment guarantees maximum functionality and durability in tough everyday industrial use.

1 Robust roller shutter cabinet
(WxDxH) 1434x725x1200 mm,
light grey PVC roller shutter
Lockable with lock cylinder

2 Lighting
1 LED light mounted on the ceiling

The use of first-class materials, state-of-the-art machine technology and environmentally friendly manufacturing processes, permanent quality control and a highly motivated team of employees guarantee durability in a timelessly beautiful design at an impressive price-performance ratio.

Quality

Thur Metall workstation systems made from high-quality sheet steel are among the favourites in industry and commerce. Whether in the assembly hall or workshop, research laboratory, museum or hospital, small parts warehouse or showroom: Thur Metall impresses wherever tools, stored goods and small parts need to be kept safe, space-saving, clearly arranged and within easy reach.

5-year warranty

You can rely on our high-quality products. That is why we offer our customers a 5-year warranty on the entire TM-Line range. Workbench tops and electronic components are covered by a 1-year warranty.

Certified production

The manufacture of Thur Metall products is based on the following standards:

ISO 9001:2015: Quality management

ISO 14001:2015: Environmental management system

ISO 45001:2018: Occupational health and safety management

High-quality surfaces

Using state-of-the-art powder coating technology for high abrasion resistance.

All colour-variable products are available in **15 standard colours** and **225 colour combinations** at no extra charge.

The three-digit colour code is part of the item number (e.g. .876). Always complete the item number with the desired colour code when placing your order (e.g. **82.034.876**).
